

# OPERATORS TO WAIT TILL STRIKERS TIRE

Will Make No Moves to Force the Fighting, Says President Fowler, of the O. & W.

## TRUESDALE AND BAER DECLINE TO TALK

Mitchell Thinks if the Men Can Hold Out Ten Weeks Longer They Can Win—How Relief Is to Be Distributed in the Shamokin District—To Be Apportioned According to Size of Family and Condition of Health. Other Strike Developments of a Day.

By Exclusive Wire from The Associated Press.  
New York, July 22.—Both President Truesdale and President Baer today refused absolutely to discuss rumors that the anthracite companies intend to resume work on the strike.

"There is really nothing new in the situation," he said. "Everything is quiet in the anthracite regions, and the operators are simply waiting until the miners shall have grown tired of remaining idle."

President Fowler said he had heard of no conference to be held today, nor was he aware of any intention on the part of the operators to resume work. "The policy of the operators," he said, "as far as I am aware, does not contemplate any attempt at breaking the strike by a resumption of work at a few collieries. We are rather inclined to wait until the miners grow tired of the strike and return to work of their own volition, as they ultimately will do."

There was a meeting at President Baer's office, which was attended by President Truesdale, of the Lackawanna; Robert W. De Forest, of the Central Railroad of New Jersey; and President Underwood, of the Erie railroad. Mr. De Forest declined to say what was the object of the meeting, and nothing was given out as to its proceedings.

Ten Weeks, May Decide.  
Indianapolis, Ind., July 22.—President Mitchell, of the United Mine Workers, expects to leave Indianapolis tomorrow for Wilkes-Barre, where he will probably remain strike headquarters Thursday or Friday. His intention, it is understood, is to remain in the anthracite region until the strike is settled. Secretary Wilson says he does not expect any more large donations until tomorrow.

It is understood that Mitchell and his assistants are convinced that they can win the anthracite strike if they can hold out for ten weeks longer.  
Indianapolis, Ind., July 22.—President Mitchell will leave for Chicago tomorrow afternoon. He will stay in that city a day and will then go direct to Wilkes-Barre to resume active management of the strike. The national officers attach a great deal of importance to the resolution reported by the committee appointed by the convention in the anthracite region in regard to the recent mine horrors, in which so many of the men lost their lives.

This afternoon several large and small contributions for the strike fund were received. District No. 13 (Iowa) sent \$5,000; the Holmermeyer and Iron Shipbuilders' National Union, \$546; local union of nine workers of Glen Carbon, Ill., \$500; local union of Jackson Hill, Ind., \$200; District No. 3, Danville, Ill., \$100; local union at Vandercook, Ill., \$50; local union at Rosedale, Ind., \$50; Central Labor union of Clinton, Ind., \$15.

Secretary Wilson says he does not expect any more large donations until tomorrow and he is not looking for any large returns from the appeal to the public for several days, though several small personal contributions have been made.

Mr. Mitchell says the national officers of the organization are considering accepting the offer of the British trades unions, through their federation, of financial aid in the strike.  
Indianapolis unions met tonight and resolved to assess members at least one cent per week on their earnings for the anthracite strikers. This will amount to \$2,000 per week.

Waiting for Mitchell.  
Wilkes-Barre, Pa., July 22.—President Mitchell has not yet arrived here to reopen miners' strike headquarters. He is expected tomorrow. Many of the local assemblies of United Mine Workers held meetings tonight and were addressed by delegates who attended the national convention at Indianapolis. All the speakers spoke in a very enthusiastic strain. They claimed the bituminous miners were deeply interested in the outcome of the strike in the anthracite region and that they would render all the assistance they possibly could to enable the strikers to win. No definite plan for the relief of the strikers will be agreed upon until the arrival of President Mitchell. After his views are ascertained it is expected that the work of distributing relief to the families of the striking miners will be begun at once.

Apportioning Relief.  
Shamokin, July 22.—The Ninth United Mine Workers' district headquarters reported today that funds for the strikers will be issued from this place. The worthiness of each applicant will be personally investigated. The money from national headquarters is expected to arrive within two weeks. An average of \$4 per week will be given each deserving striker, although the amount

will vary according to the size of the applicant's family and whether they are in sickness or health.

Infuriated Miners.  
Charleston, W. Va., July 22.—The arrests of strikers yesterday infuriated the miners there and evening commenced today, large numbers of men shouting epithets at the men who are working. The colliery got out seven hundred tons of coal today, but the men who are working are practically prisoners in the mine, as they do not come outside. Chief Deputy Hughes and Deputy Cunningham, of the federal marshal's office, made eighteen arrests, thirteen men being brought here and five being taken to Hinton. The situation is serious in the Hinton section.

At Monarch colliery of the Kanawha and Hocking company, 488 tons were taken out today. The marching there has stopped, after it had continued last week.

Soft Coal Trade Booming.  
Pittsburgh, Pa., July 22.—About five million bushels of coal, requiring fifty boats and 266 barges to transport, passed through Davis island dam today en route to the south. This is the heaviest single day's shipment this year. Additional shipments will be made if the coal can be returned before the boating stage falls.

## BIG PACING EVENT. Heart Disease Contest in 2,000 Class at Cleveland Circuit.

By Exclusive Wire from The Associated Press.  
Cleveland, July 22.—The \$3,000 stake for 2,000 pacers was the banner event of today's grand circuit meet, and it was decided only after an eight heat contest, making it the longest race that has been held since 1893.  
Fred S. Wedgewood was the opening favorite and continued so until after the fourth heat had been paced. Then Dan R. who had always been well played, showed himself, but dropped the next two heats to others. At the beginning of the seventh heat, the Wedgewood was the favorite, but Dan R. did the last and led the way in the pair of succeeding trips around the track. Pronounced favorites won each of the other three races in straight heats and at no time was there much danger of either of the three being beaten out. The track was spangly and at least two seconds were added to the time of each race. A larger crowd than has ever gathered at a Cleveland opening day. Summaries:

## THE FIRST BLOW IN BIG RAILROAD WAR.

Pennsylvania Company Hits Hard at the New Gould Property.

By Exclusive Wire from The Associated Press.  
Baltimore, July 22.—Reports as to what the Pennsylvania railroad will do to handle the plans of the Goulds for crystallizing into facts. The first blow aimed at the Goulds will be to take from the Western Maryland railroad the through traffic it now handles between Cherry Run, W. Va., and Shippenburg, Pa. The traffic is received by the Western Maryland at Cherry Run from the Baltimore and Ohio, and is delivered to the Reading at Shippenburg. This arrangement gave the Western Maryland a haul of fifty-four miles on a heavy traffic.

It is estimated that the profit to the Western Maryland railroad in 1901 from this business amounted to \$800,000. This is over 70 per cent. of the net earnings of the Western Maryland railroad, and is evidently intended by the Pennsylvania to be a staggering blow to its new owners.

## PREPARING FOR THE NEXT WAR

Secretary Root, Before Going Away, Reminds the Army That This Is Now in Order.

## OFFICERS' COLLEGES TO BE ESTABLISHED

There Are, He Says, 1,542 New Lieutenants in the Line of Army Who Have to Be Qualified for Independent Command—Urges That All West Point Graduates Help to Make the Education of These New Officers Complete.

By Exclusive Wire from The Associated Press.  
Washington, July 22.—Secretary Root, before leaving Washington today, issued the following:

With the reduction of the Philippine force and the withdrawal from Cuba, the army is called upon to resume its most important work of the time of peace—the work of perfecting itself in military science and skill, and of promoting the preparation of the United States against future wars, which will call upon it to the conditions which now require special effort and zeal on your part in the performance of this duty.

Since the declaration of war with Spain in April, 1898, there have been appointed in the line of army, 1,542 lieutenants. In addition to 276 appointed from the military academy, of these 1266 were appointed from officers of volunteers have acquired the most valuable experience by active service in the field, it is of great importance to them, as well as to the untrained recruits, that they should have an opportunity for broad and thorough training, both practical and theoretical, under the competent supervision of the best of whom our army is able to supply.

Congress has now with wise liberality made provision for the re-opening of the United States military academy, and for the general system of military education embodied in the general order of November 21st, including the enlargement and development of the Port Leavenworth school into a general service and staff college, the establishment of the war college at Washington, with suitable buildings and equipment, and the maintenance of the United States military academy at West Point, and has made ample appropriations for these purposes.

Every effort will be made by the war department to do what has generally been considered the most difficult task of the whole system—to bring its advantages to the new officers of the army as speedily as possible and to organize a system of instruction that will be satisfactory to all the considerations of the service, the benefit to the individual officer, and the opportunity to demonstrate their loyalty to the principles of that institution by helping to diffuse throughout the service the benefits which have come to them from their four years of hard study.

The newly appointed officers should realize that to do what has generally been considered the most difficult task of the whole system—to bring its advantages to the new officers of the army as speedily as possible and to organize a system of instruction that will be satisfactory to all the considerations of the service, the benefit to the individual officer, and the opportunity to demonstrate their loyalty to the principles of that institution by helping to diffuse throughout the service the benefits which have come to them from their four years of hard study.

Careful attention to the instruction of the newly appointed officers is enjoined upon all regimental, troop, battery and company commanders. They should be impressed with the importance of the faithful performance of every duty, however unimportant it may appear to them, and should be made to understand the importance of bearing in mind their relations as shall do honor to the service.

# ARCHBISHOP IRELAND ON NEGOTIATIONS

Gifts from the Pope. Mr. Root Tells Governor Taft How They May Be Accepted.

By Exclusive Wire from The Associated Press.  
Washington, July 22.—Governor Taft has acquainted Secretary Root with the fact that the pope tendered several pretty and appropriate gifts to himself and the members of his party, and he has asked whether these can be accepted lawfully. It was at once recognized that the question thus presented involved some very delicate and interesting points, principally among them being a possible decision, extremely to be avoided at this stage in the opinion of the officials, as to the temporal powers of the pope. If these were decorations or gifts of large value, then under the constitutional inhibition they might not be received without authority of congress if the pope is regarded as having temporal power—as being a prince, a potentate or a sovereign. Secretary Root has, however, avoided an unpleasant decision of this question by informing Governor Taft that if these gifts are not of considerable intrinsic value and are personal in character they may be accepted as mere souvenirs, in which case the personality of the giver need not be a matter of official inquiry. On the other hand, if the gifts are of exceptional value, which is not believed to be the case from the newspaper reports, then they may be deposited in the Smithsonian institution in this city.

## ATTORNEY BYERS ENTERS BAIL Amazing Statement He Makes in Answer to Charges.

Byers, now under arrest and charged with the theft of nearly a quarter of a million dollars' worth of bonds and money from old Jacob Byers, a grand-uncle, that he knew nothing of the bonds and money were located and that they would be released were the aged relative to prove conclusively that he had a legal right to the possession, has created a new sensation and amazed the attorneys for the prosecution, who were of the idea that the attorney would simply make a sweeping denial that he knew anything of the matter.

## Some of the Facts.

And as to schools in the Philippines, why not when the presence of non-Catholic teachers is talked of, state that out of a total of 5,000 teachers, 2,500 are Filipino Catholics? Why not state that Father McKinnon is a member of the school board of Manila? And why, when mention is made of non-Catholic teachers, allow the false impression to go abroad that many of these were ministers and active proselytizers? And why not remember that, by the law of the islands, clergymen who are ministers in any place of organized congregations may three times a week teach religion in the schools of the place, the condition that they be ministers of organized congregations virtually confining the privilege to the Catholic priesthood? Perhaps, ideally, something more might be desired; but the conditions within which the government is confined must be considered; and, at least, when disadvantages to religion are quoted, the advantages that are allowed should also be set forth.

Says the Questions at Issue in the Philippines Will All Be Satisfactorily Adjusted.

## SOVEREIGN PONTIFF IS MUCH PLEASED

Archbishop Declares the Reports Sent to London Papers by the Rome Correspondents Concerning the Negotiations Were Absolutely Unfounded—That the Scene of the Negotiations Have Been Transferred from Rome to Manila Might Have Been Expected from the Beginning.

By Exclusive Wire from The Associated Press.  
St. Paul, July 22.—Archbishop John Ireland, in an interview with a representative of the Associated Press to-day, reviewed at some length the progress of the negotiations conducted between Judge Taft and the Vatican, and took to task certain Catholic organizations that had assumed to question the fairness of the administration toward their co-religionists. The archbishop said:

Yes, the news from Rome is quite satisfactory, and it is, I am sure, quite correct. Private advices coming to me from the most reliable source confirm, in all respects, the dispatches given by the Associated Press. The sovereign pontiff and other Roman authorities are delighted with Governor Taft personally and with the negotiations in course of progress between him and the Vatican. Reports sent out by the correspondents of certain London papers to the effect that the pontiff was displeased with the manner of conducting the negotiations, and that he was most satisfied and happy at the results so far obtained, and that he was confident the negotiations begun in Rome would be the starting point of a complete and satisfactory conclusion of the matter under discussion.

## Necessity for Transfer.

This statement sums up in the most exact manner the situation as the Vatican views it, and as it really is. That the negotiations have not yet reached final conclusions and are to be transferred from Rome to Manila is what might have been expected from the beginning. Governor Taft is in a position to have the Philippines and could not prolong his stay in Rome, and on the other hand the problems to be solved are so complicated, especially from the Vatican standpoint, that time in the work is of prime necessity.

He carries away with him the pontiff's statement that the negotiations begun in Rome will prove to have been the starting point of a complete, satisfactory solution of the questions at issue, and that much he considers to be quite sufficient for the moment. There can be no doubt that the active co-operation of the Vatican is now secured to the American government in its task of pacification in the Philippines, and that in the result to come the administration at Washington will have ample reason to felicitate itself for having sent Governor Taft to Rome.

And now it is to be hoped there will be among certain classes of Catholics in America, a cessation of movements and declarations such as have been in the past on the occasion of hearing of religious matters in the Philippines. The pope teaches those Catholics to trust the American government, and he has herefore been unwilling to do. In his conversation with Governor Taft he expressed the highest esteem for American methods, and he has herefore been unwilling to do.
